Dear Neighbor,

We are proud of the impact the Milltown Education Foundation has made on the community and the legacy we continue to build by bringing families and friends together to solve problems both physically and financially within Milltown's Schools. Our collective strength has been shown in the classrooms across both Parkview and Joyce Kilmer School as well as with collaborative and family-friendly events in our community.

The Milltown Education Foundation's (MEF) mission has been to enhance the educational excellence of Milltown's school children, by providing a source of funds and resources to supplement educational opportunities that the traditional school budget does not always allow. Your past support has helped the MEF to:

- Purchase KIBO Robotics equipments to enhance STEAM education at Parkview School
- Purchase chair attachments for students at JK as they transition to Multi-classroom education settings without lockers
- Most recently an investment helping the district to increase diversity, inclusion, and equity offerings in both Parkview and Joyce Kilmer School libraries

It is with the support of local businesses and community members, like you, that we can continue to provide the funding to carry out our mission. We need our partnership. Your support will allow education to continue to provide exceptional experiences for our students, and not worry about financial obstacles.

Your investment will maximize our ability to fund the next generation of innovative experiences that make Milltown Public Schools education so unique.

Will you join me in making this vision a reality? Together, we can have an impact- One student at a time!

With gratitude,

Jill Hetzler

President- Milltown Education Foundation
